SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Guidance on Medical Devices: Pre-Submission Program and Meetings with FDA Staff—(OMB Control Number 0910–NEW)

This guidance describes the Pre-Submission program for medical

devices reviewed in the Center for Devices and Radiological Health (CDRH) and the Center for Biologics Evaluation and Research (CBER). The guidance provides recommendations regarding the information that should be submitted in a Pre-Submission Package and procedures that should be followed for meetings between CDRH and CBER staff and industry representatives or application sponsors. When approved by OMB, this guidance document will supersede “Pre-IDE Program: Issues and Answers—Blue Book Memo D99–1” dated March 25, 1999.

A Pre-Submission is defined as a formal written request from an applicant for feedback from FDA to be provided in the form of a formal written response or, if the manufacturer chooses, a meeting or teleconference in which the feedback is documented in meeting minutes. A Pre-Submission is appropriate when FDA’s feedback on specific questions is necessary to guide product development and/or application preparation. The proposed collections of information are necessary to allow the Agency to receive Pre-Submission Packages in order to implement this voluntary submission program.

Over time, the FDA pre-investigational device exemption (pre-IDE) program evolved to include feedback on premarket approval (PMA) applications, humanitarian device exemption applications, and 510(k) submissions, as well as to address questions related to whether a clinical study requires submission of an IDE. During discussions with representatives of the medical device industry in the development of the Agency’s recommendations for Medical Device User Fee Amendments 2012 (MDUFA III), both the industry and the Agency agreed that the Pre-Submission (formerly pre-IDE) process provided important additional transparency to the IDE and premarket review processes. In response, the Secretary’s 2012 Commitment Letter to Congress (MDUFA III Commitment Letter) included FDA’s commitment to institute a structured process for managing Pre-Submissions.

To fulfill the Secretary’s commitment to the industry, this final guidance: (1) Describes the Pre-Submission program (formerly the IDE program) for medical devices reviewed in CDRH and CBER; (2) assists device manufacturers and their representatives who seek meetings with the FDA by providing guidance and recommendations regarding information that should be included in a Pre-Submission Package; and (3) provides guidance as to the
